informative talk that will open your eyes and  
make you glad you came.**

**He will also be providing special music for the  
evening.**

### **MBCH Provides support for those trapped in Human Trafficking**

Human Trafficking profits from enslaving people for sexual servitude and forced labor world-wide. Consider the following statistics:

- There are 100,000 to 300,000 underage girls being sold for sex in America.
- The average age of American victims is 12-14 years old.
- 1 out of every 3 teens on the street will be lured toward prostitution within 48 hours of running away from home.
- Minor victims were sold an average of 10-15 times a day, 6 days a week.

In December of 2012 MBCH Children and Family Ministries opened its doors to victims of human trafficking through its program, Freedom 43:19, which is taken from Isaiah 43:19: "Behold, I am doing a new thing; now it springs forth, do you not perceive it? I will make a way in the wilderness and rivers in the desert."

**THERE WIL BE** a time for food & fellowship following  
the meeting.
